

PECALTEX OPENS NEW TEXTILE LABORATORY WITH TOMSIC EQUIPMENTS!

PECALtex, the high quality manufacturer of yarn (100% combed cotton and 50-50 blend yarn), has just inaugurated the new textile laboratory, completely designed by **Tomsic**, in Huejotzingo - Puebla - Mexico. PECALtex's mission is to provide the best quality yarn to all customers. The quality control of their products is therefore one of essential things. Since now this important job will be done by Tomsic Evenness Tester **EASY**, Automatic Strength Tester **TensoTester3** and **Count Analyser**. The control of the purchased fibre will be done by Tomsic High Volume Tester **HVT**.

THANK YOU PECALTEX TO TRUST IN TOMSIC!
