

COVID-19: ACCESS AND ATTENDANCE MANAGEMENT

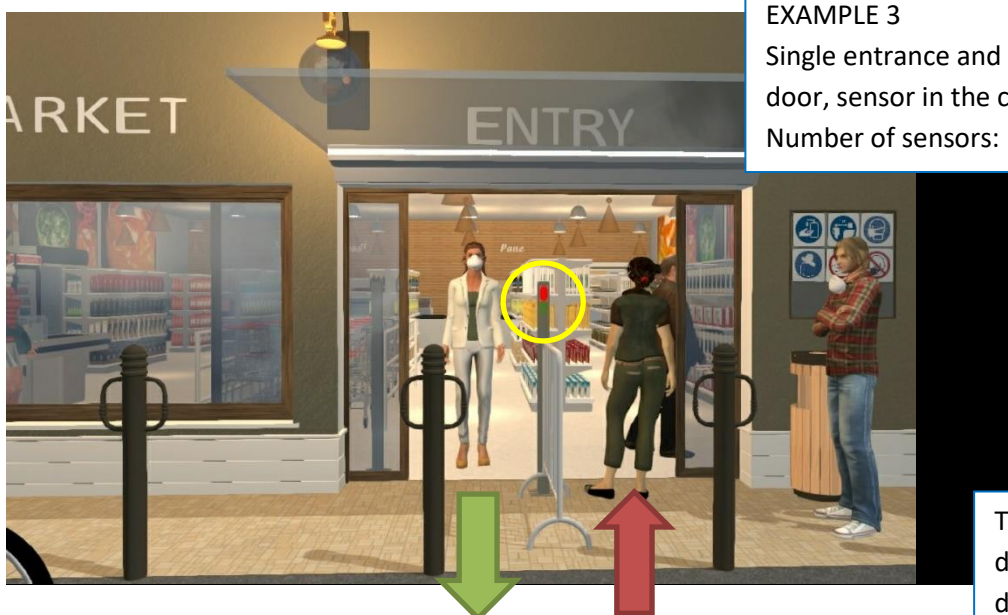

How the TMS58 people counter can help limit contagion

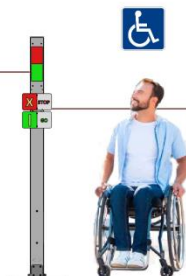

EXAMPLE 1
Single entry and exit.
Number of sensors: 1

EXAMPLE 2
Separate entrance and exit.
Number of sensors: 2

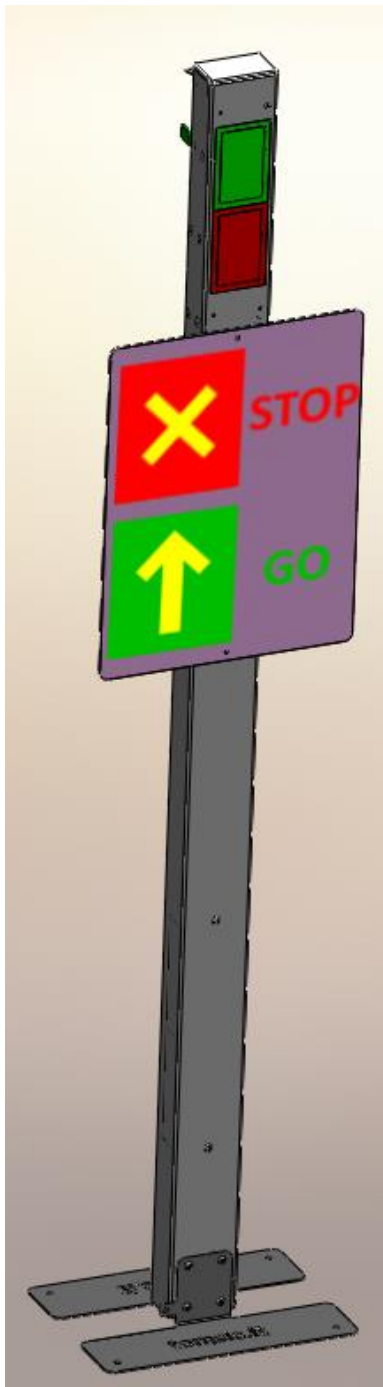

EXAMPLE 3
Single entrance and exit, wide door, sensor in the center.
Number of sensors: 1

The laser barrier can be set at different height. So useful for disable accesses.

EXAMPLE 4
 Single entry and exit. Counter light controlled by the internal operator with radio control. Number of sensors: 1

Functions:

- People limiter, people count, statistics.
- Programmable people limit.
- Automatic people advance.
- Manual people advance with radio control.

Technical features:

- System with battery (duration 18 hours).
- Battery charger (115-230 Vac) included.
- Maximum distance between two sensors 50mt.
- Anti-theft hook.

Sensor kit includes:

- 1 column with STOP and GO indicator lights.
- 1 power cable (115-230 Vac).
- 1 radio control.
- Weight: about 5 kg; Dimensions (H x W x D): 1500 x 80 x 50 mm

No installation required
